

Magalloway and Rapid Rivers

2023 Recreational Whitewater Release Dates

Note that a portion of the recreation flow release will start 10-15 minutes before the scheduled time, to warn users out of reach of the audible and visual warning systems that flow is increasing. For your safety, this smaller increase is an additional warning for users to exit the river before the release has ramped up to full flow.

River Flow Information:
1-844-430-3569 (FLOW)

SafeWaters.com

Minimum flow provided at all times not shown below:

River flow and levels at these facilities are subject to change.
Please exercise caution when recreating upstream or downstream of dams and powerhouses.
